

SUN-GRIA

Cuca

A colourful twist on your classic Sangria, the SUN-GRIA cocktail at Cuca takes all the best bits of the Spanish favourite then muddles it together with some serious creativity and a dash of Indonesian flavour. Cuca is known for using 100% local ingredients in its casual tapas offerings, and this concept doesn't stop at the cocktails. The red wine is made in Bali, the ice is made from Indonesian fruit juice and the vanilla-scented Brandy is made in-house by steeping fresh vanilla for an entire week. Rather than just throwing in chopped pieces of fruit, the Sun-Griya's frozen fruit juice means different tropical flavours develop as the ice cubes melt, making no two sips the same.
